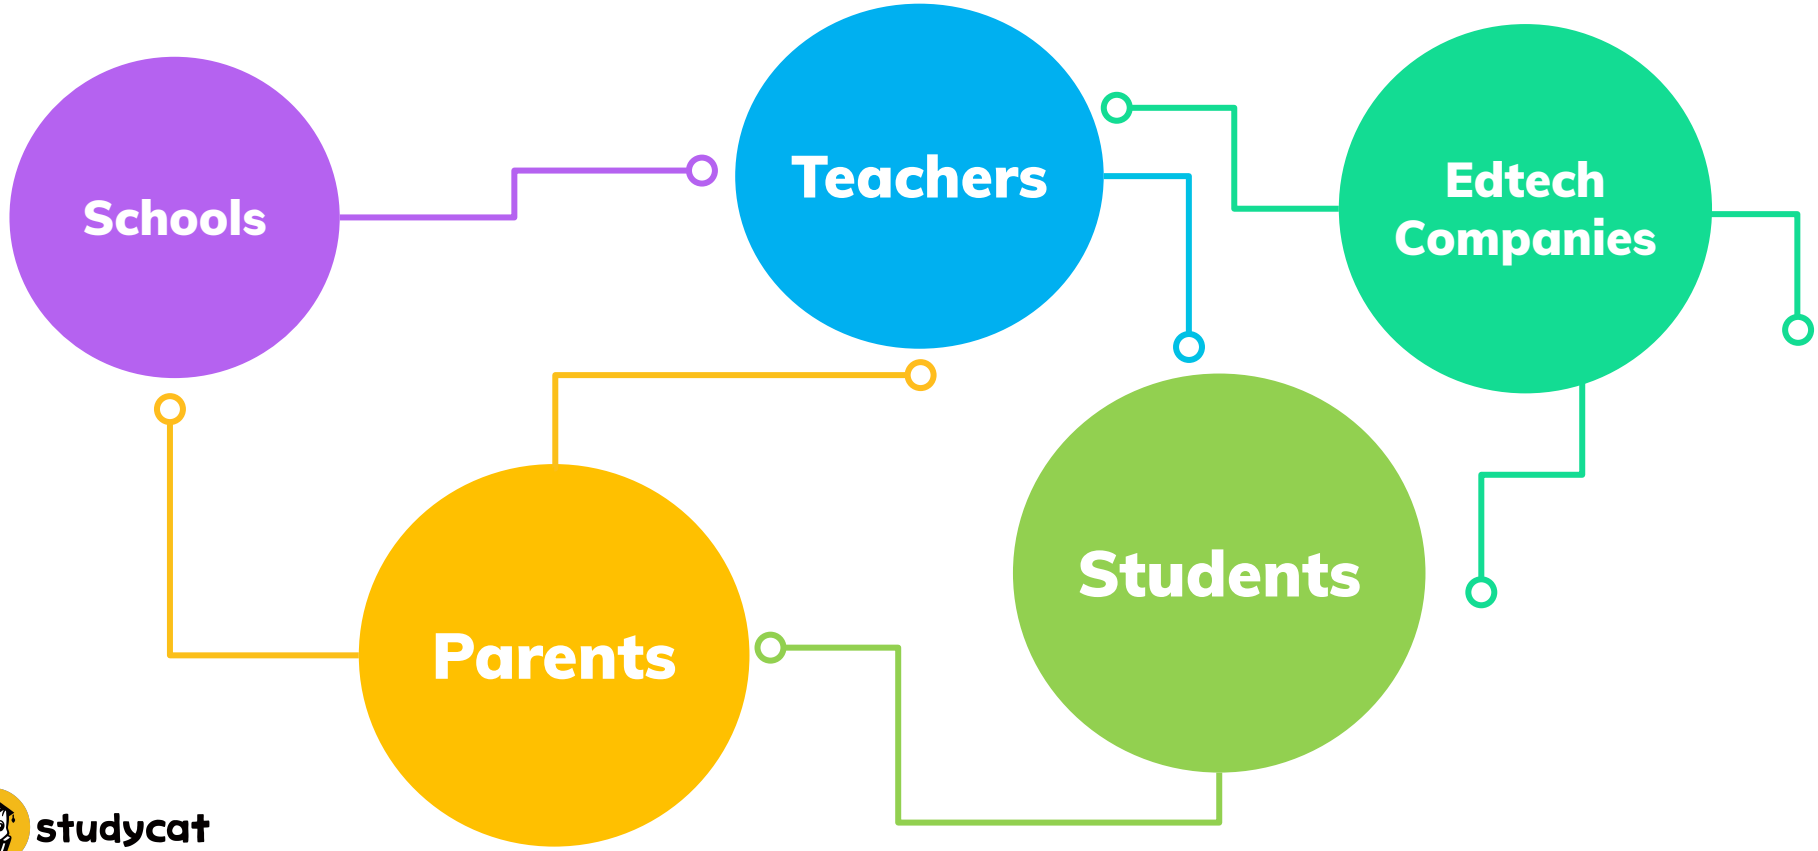
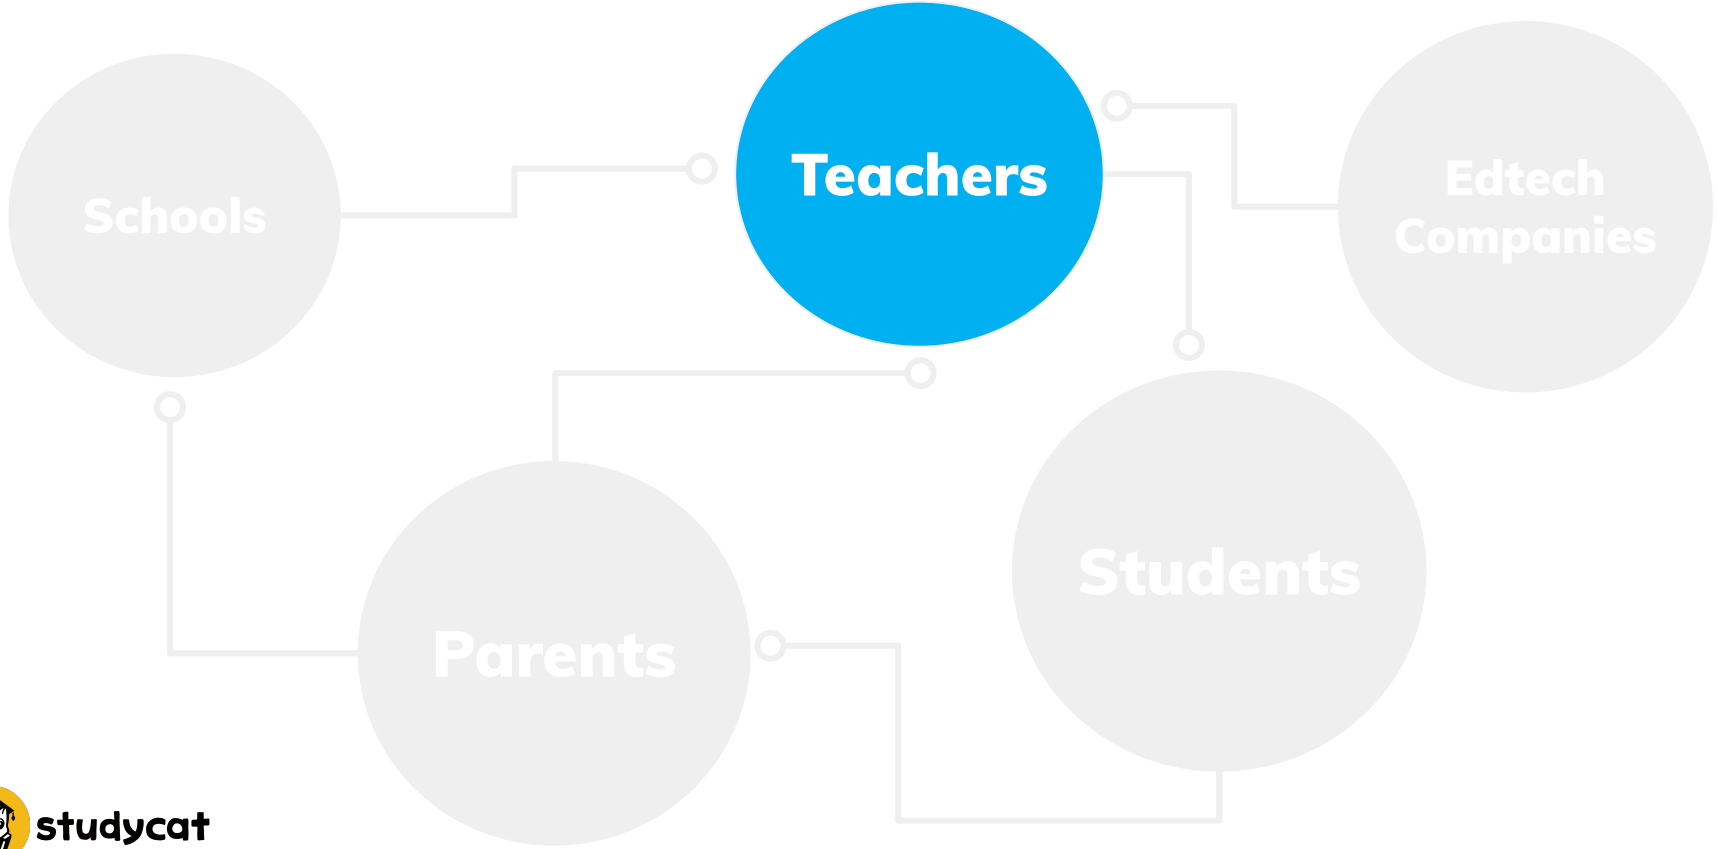
Connecting



Edtech connects



studycat

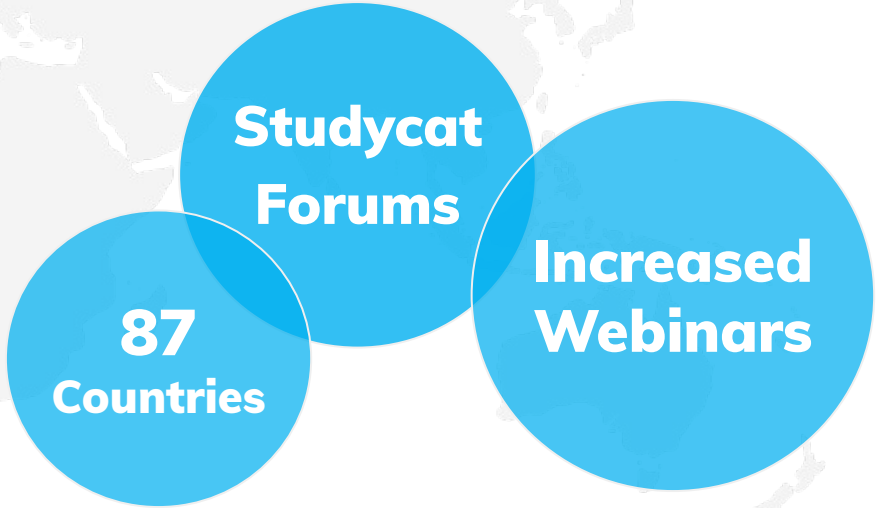
Teachers

Not ready to adapt
Lack of training
Lack of flexibility in models

Began experimenting
Looking for new approaches
Upskilling

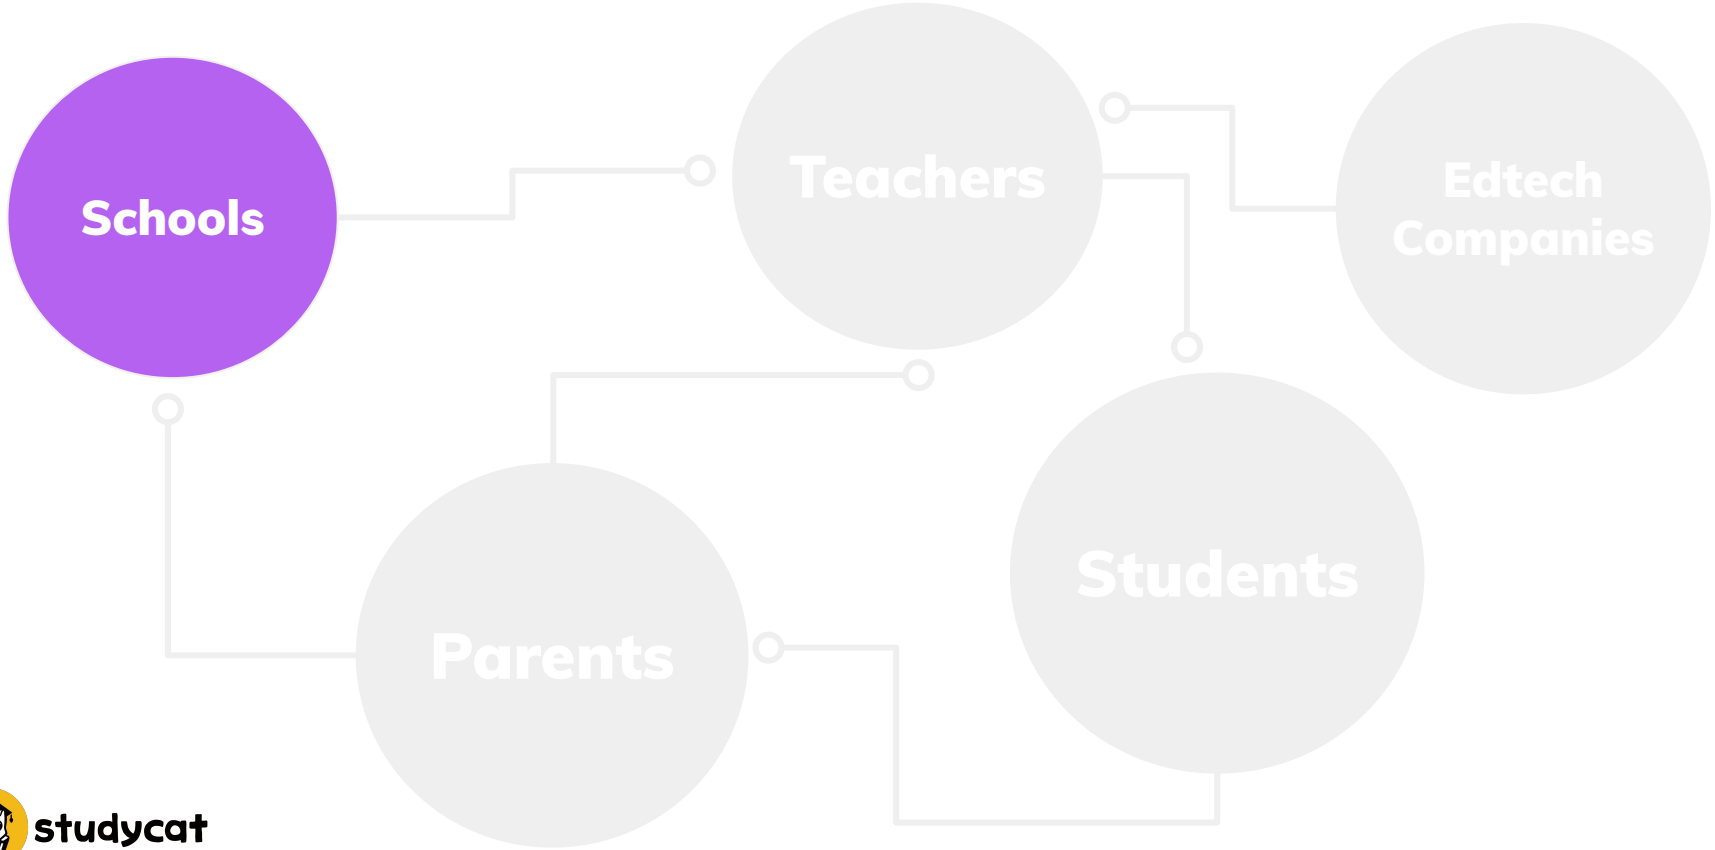
“It feels like being a new teacher again”

“It’s really made me rethink my teaching”



studycat

Edtech connects



studycat

Schools

Underprepared
Focus on hardware over software
Focus on curriculum over learning
Closed doors

Reacted quickly
Willing to make mistakes
Experiment with new models
Open doors

Parents

Challenged & disrupted
Frustrated at schools
Lack of knowledge

Parent of 4 year old, Vietnam
"I like that I can see my daughter's progress. She does enjoy fun with this app and it makes it easier to review the lesson [illegible] It is a daily part of our evening routine now."

See their child's learning process
Became aware of online & apps
Raised expectations from schools

Students

Developing Learner Autonomy

- Most adaptable
- Parents more involved
- Increased exposure
- Opportunities for learning
- Learning is relevant to share

Differentiation

Intrinsic motivation

Game-based Learning

If you give children **opportunities** and **motivation** to learn, **they will learn**
