

studycat for schools

An English language learning solution
connecting homes and schools aligned
to Cambridge Young Learners

2021

Start Young

We believe that language learning should start young.

Learning Through Play

We believe that fun, active learning gets the best results.

Connected Learning

We believe that connecting home and school accelerates the learning process.

Data Driven

We believe that data empowers educators to achieve superior learning outcomes.

Connecting homes & schools

Students

With Studycat, children build learner autonomy and foundation literacy skills in English. A rich variety of game-based activities, puzzles, and songs brings joy to learning at school and at home.

Parents

Parents want to be a part of their child's learning journey and Studycat makes that really easy. The dashboard lets parents engage and interact with their child's progress anytime, anywhere.

Teachers

Teachers are busy and their time is very valuable. Studycat makes teachers' lives easier by managing homework automatically and sending reports to both parents and school directors, letting teachers focus on teaching.

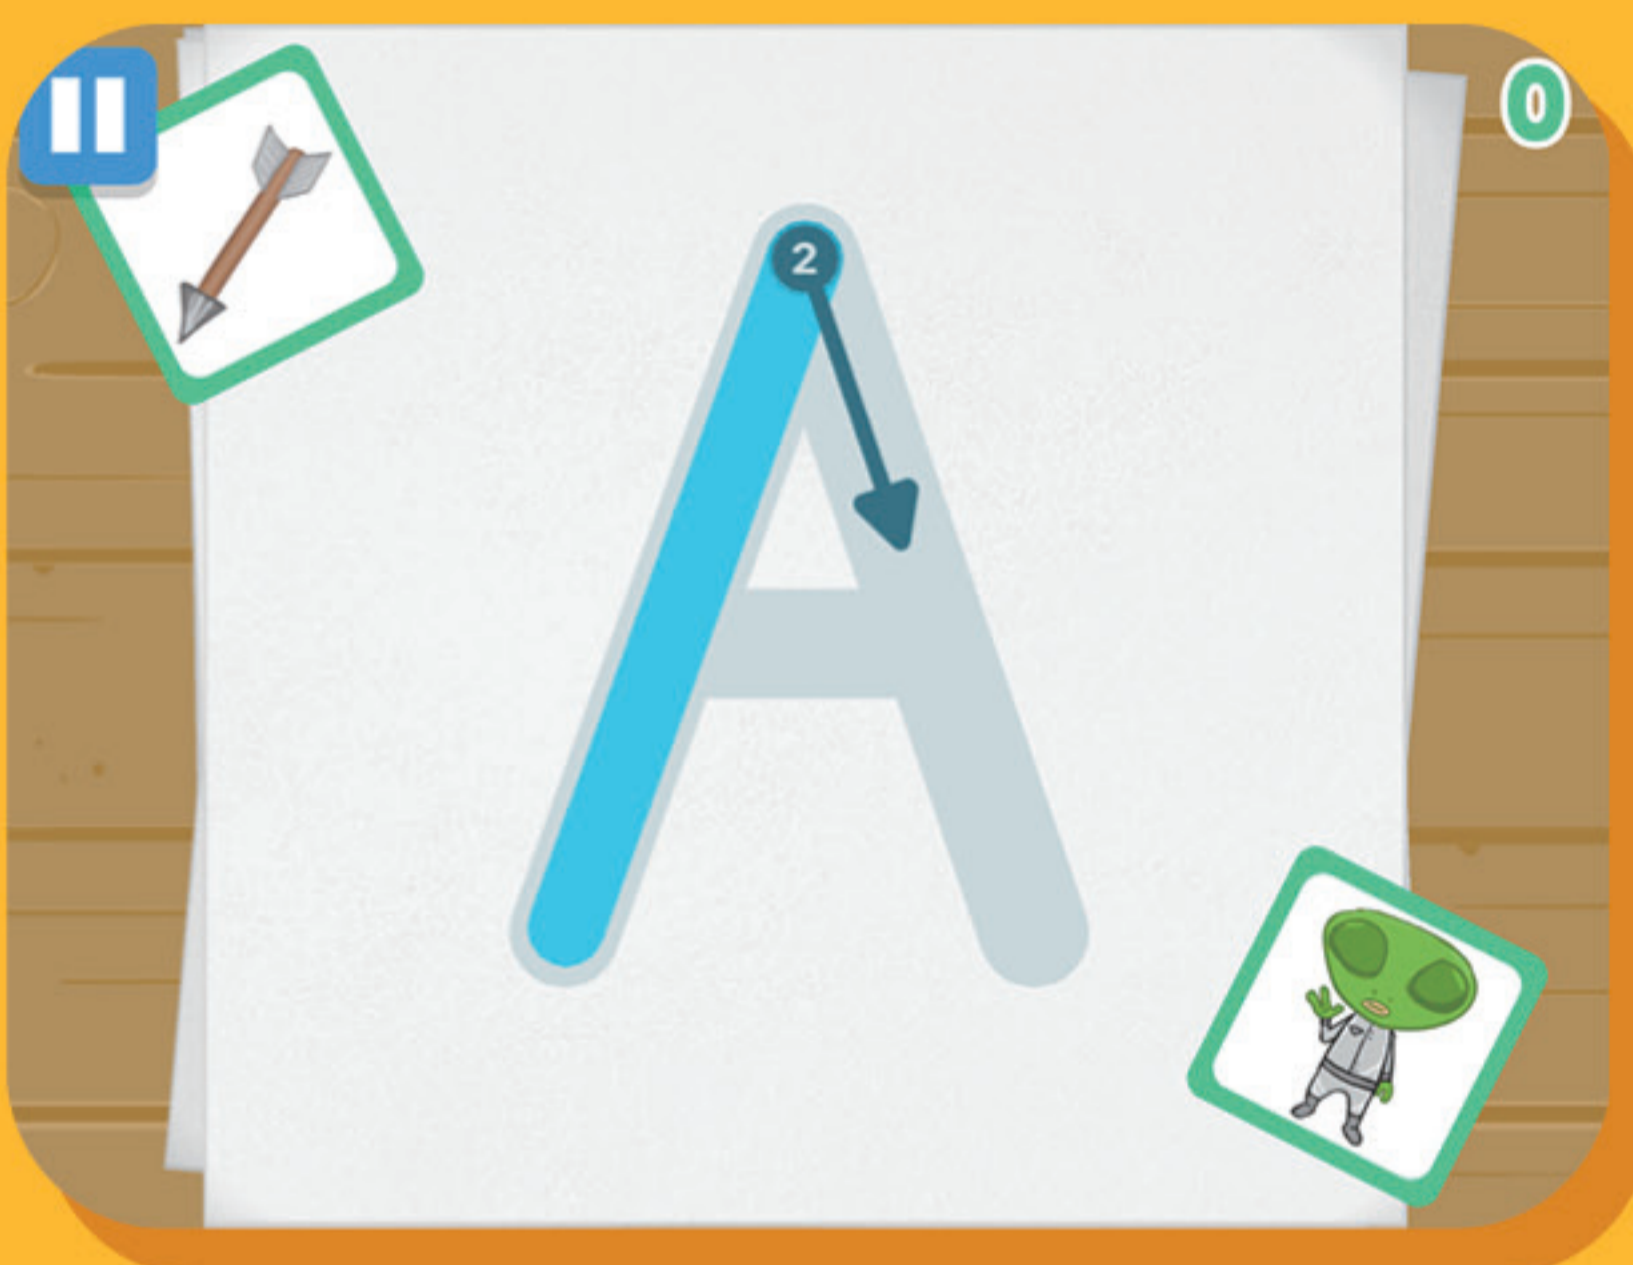

Developing independent learners

"Simple to use, so that parents with minimal English can support or join with their kids to enjoy the activities and games."

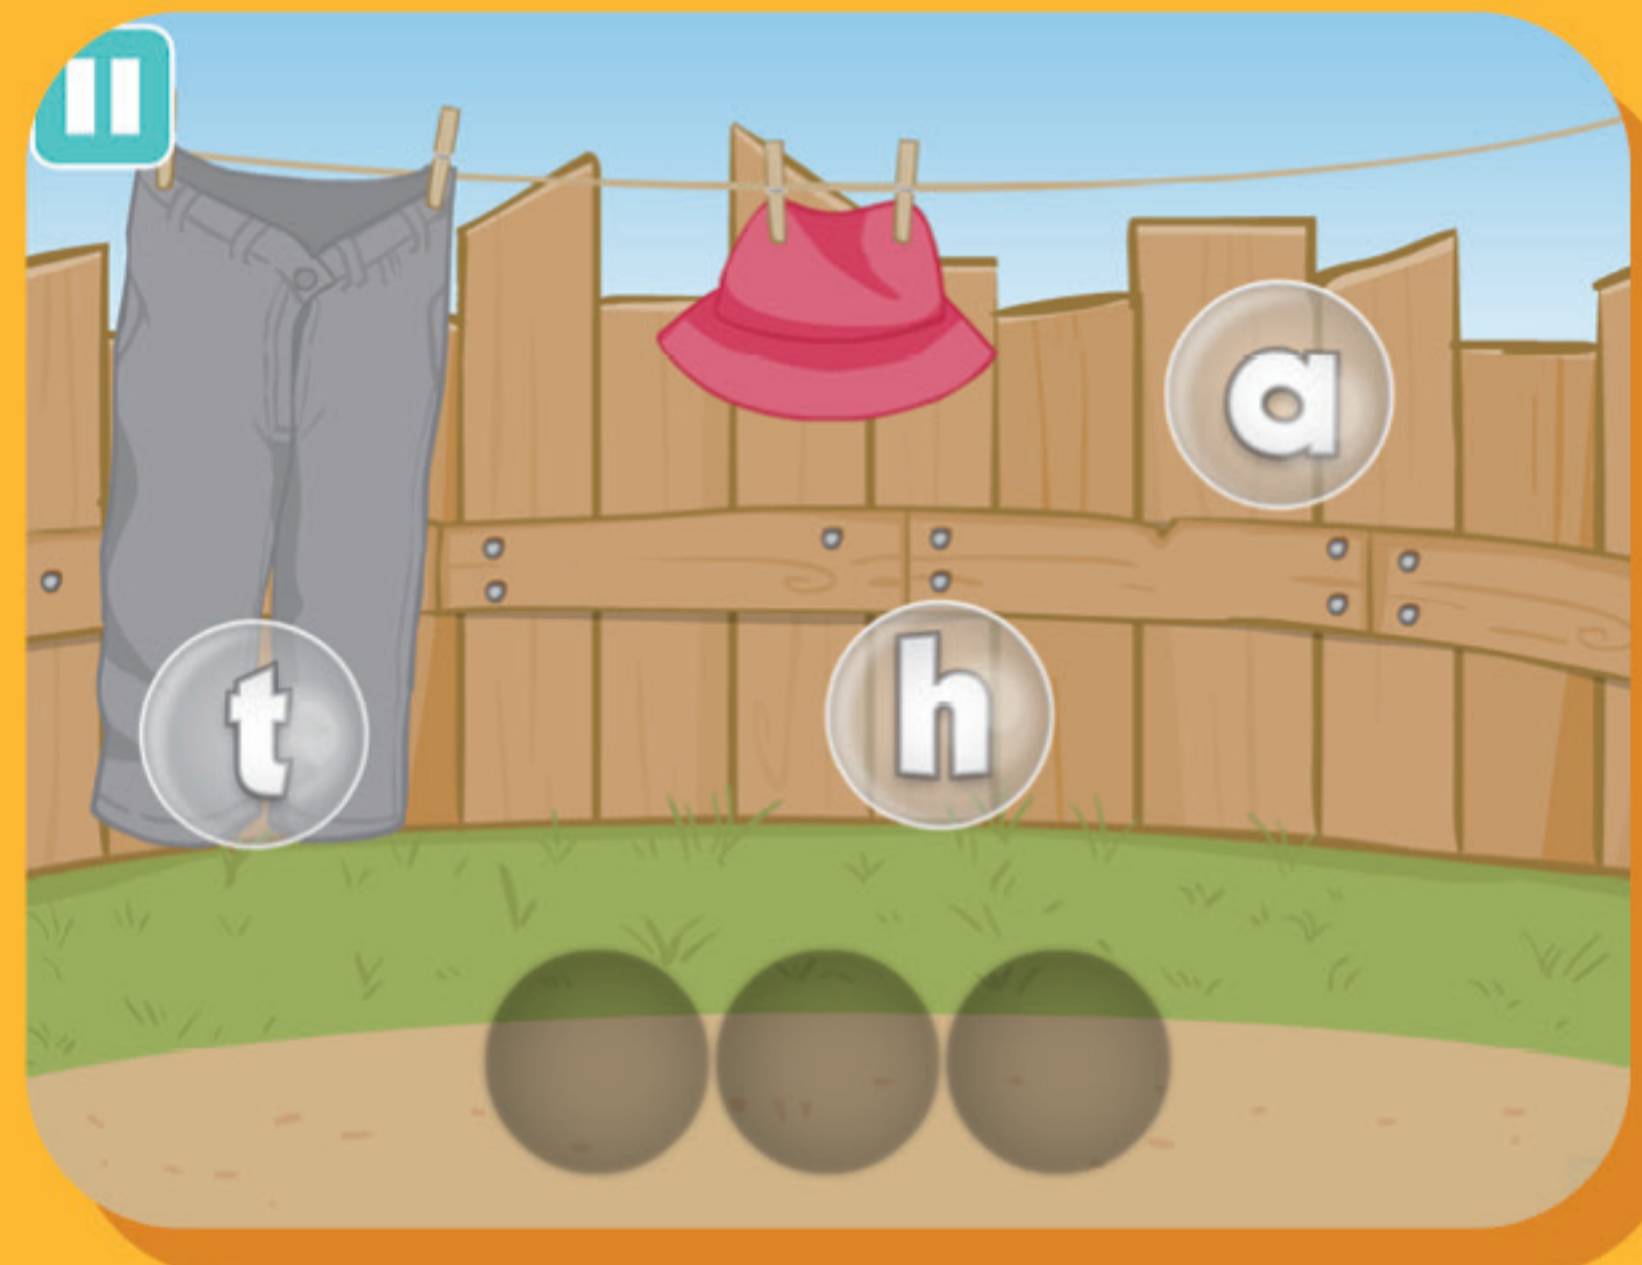

Ms. Huyen, Vinschool, Vietnam

Three levels of fun songs, games, phonics activities, dialogues, spelling challenges and quizzes.

Voice Recording

International English curriculum

Packed with common early years themes, Studycat for Schools acts as a perfect enhancement to any local or international curriculum.

Themes include:

Animals, The Body, Clothes, Colours, Emotions, Family, Food, Holidays, The House, Rooms, Numbers, Routines, At School, Sports, Technology, Time, Towns, and Transport.

Focusing on building early literacy with:

Vocabulary, sentence patterns, phonics, spelling, letter recognition, voice recording and sight words.

Keeping parents in the learning loop

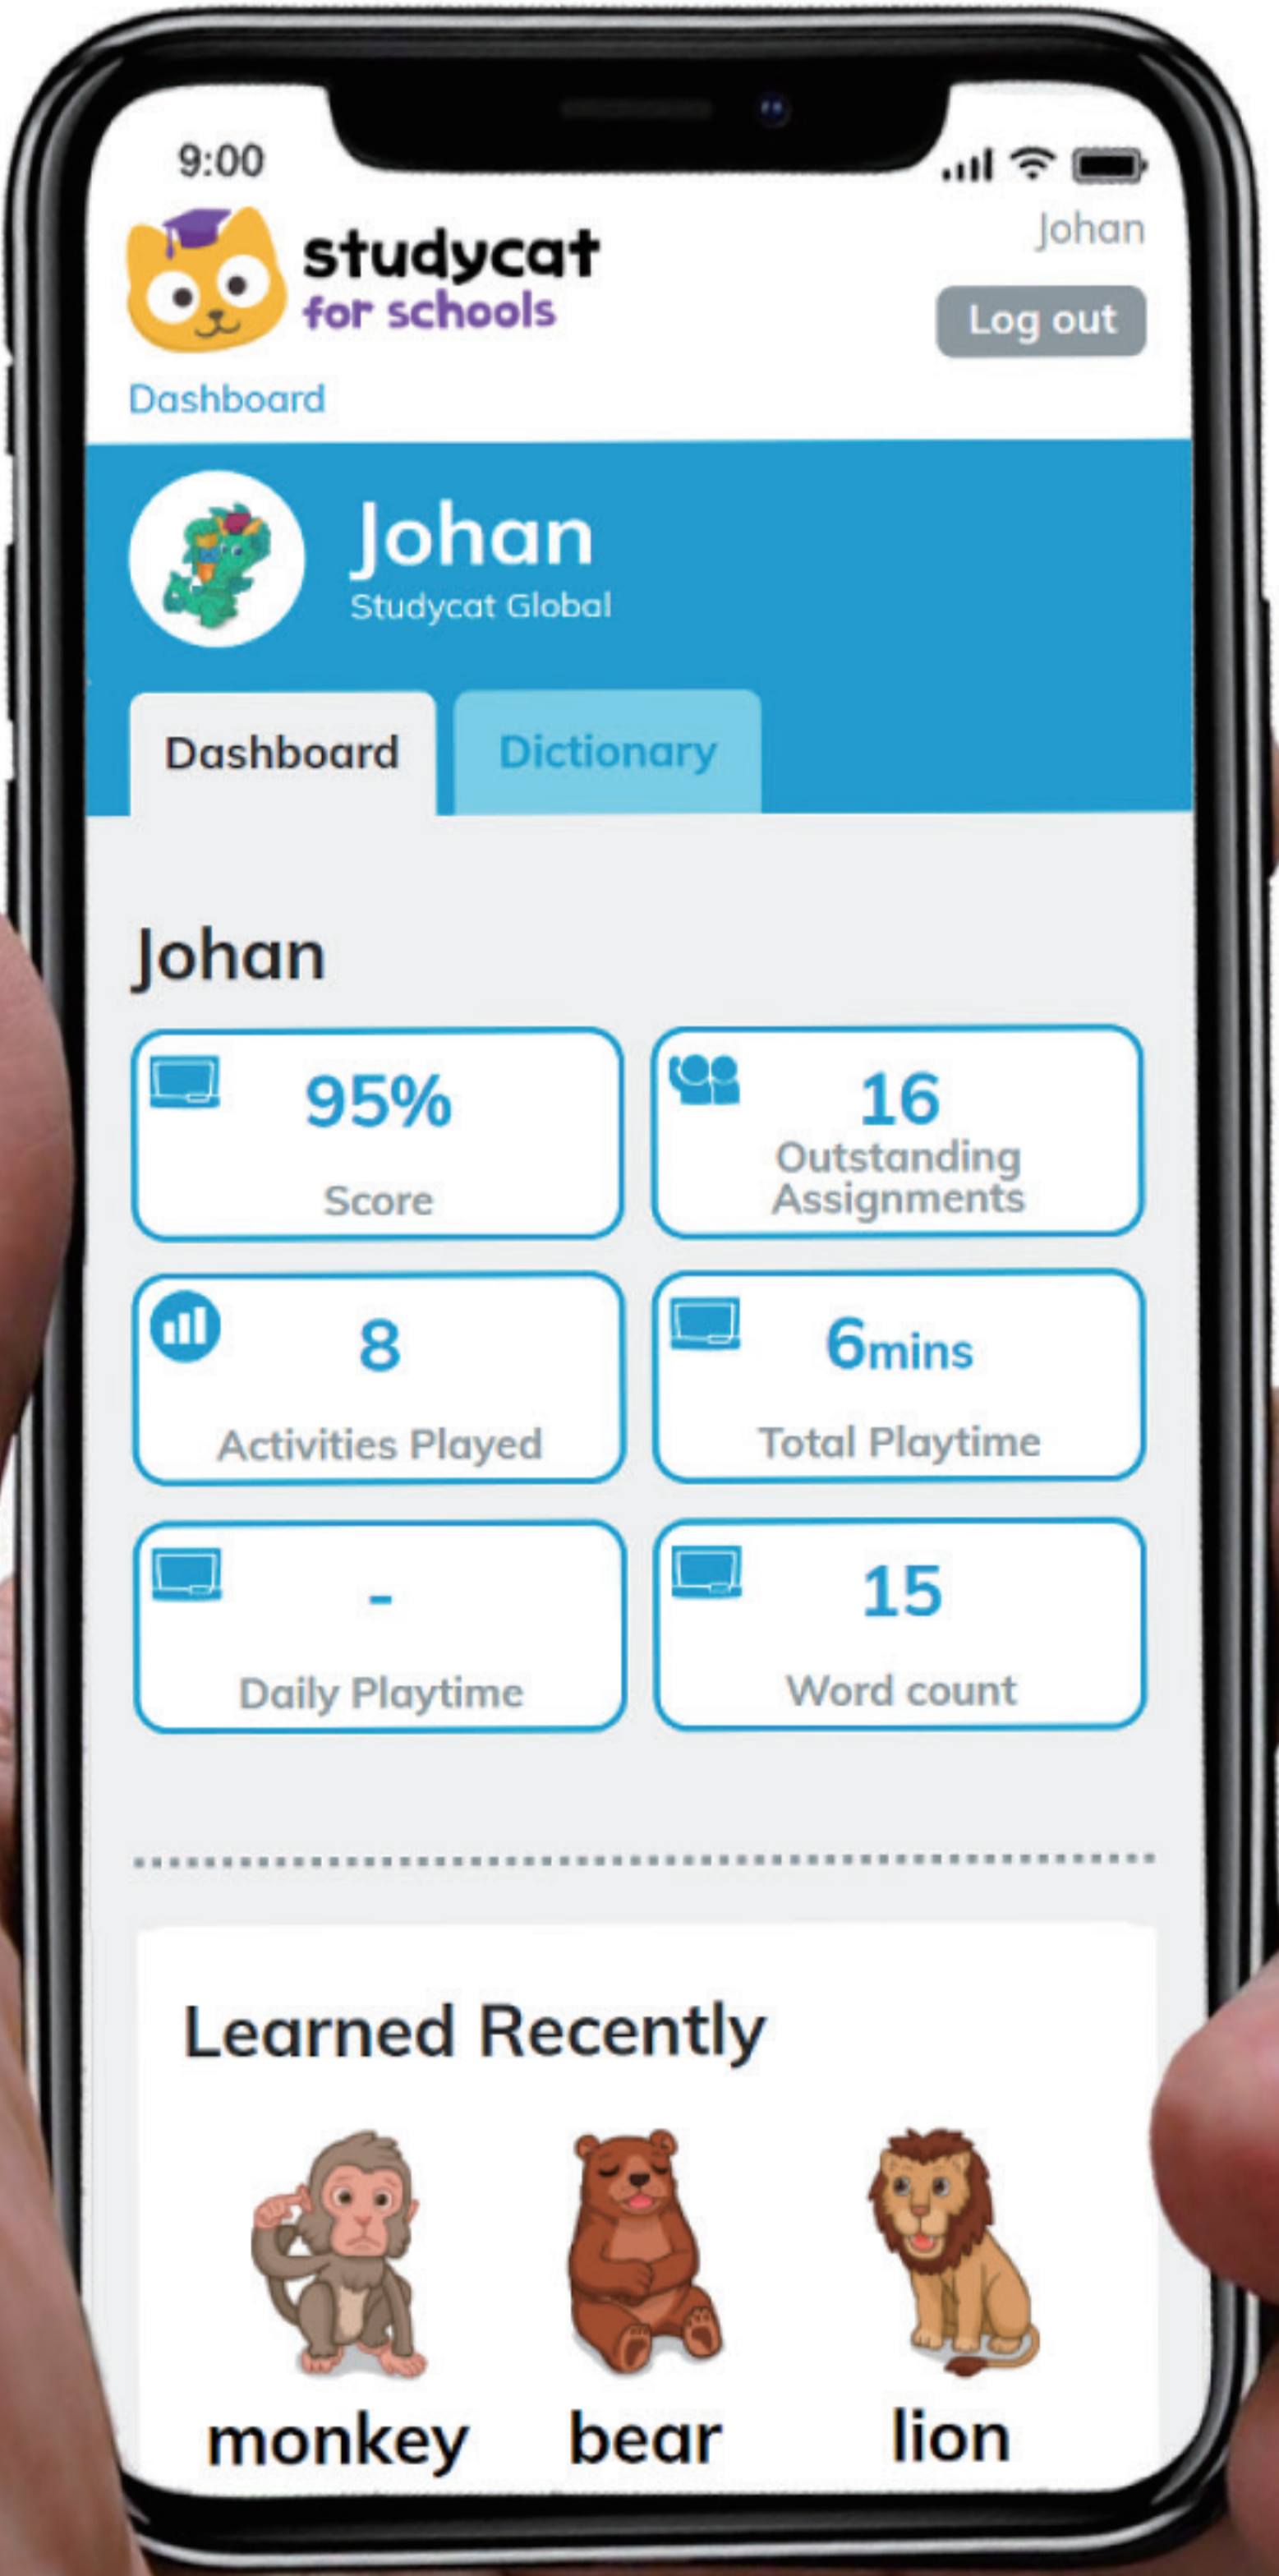

With Studycat, parents can get actionable feedback on their child's learning.

Recently learned vocabulary, daily time on task, word accuracy and more is all updated in real-time on a parents smartphone.

Connected learning cycle

A flexible and adaptable model adjusted to your school's needs.

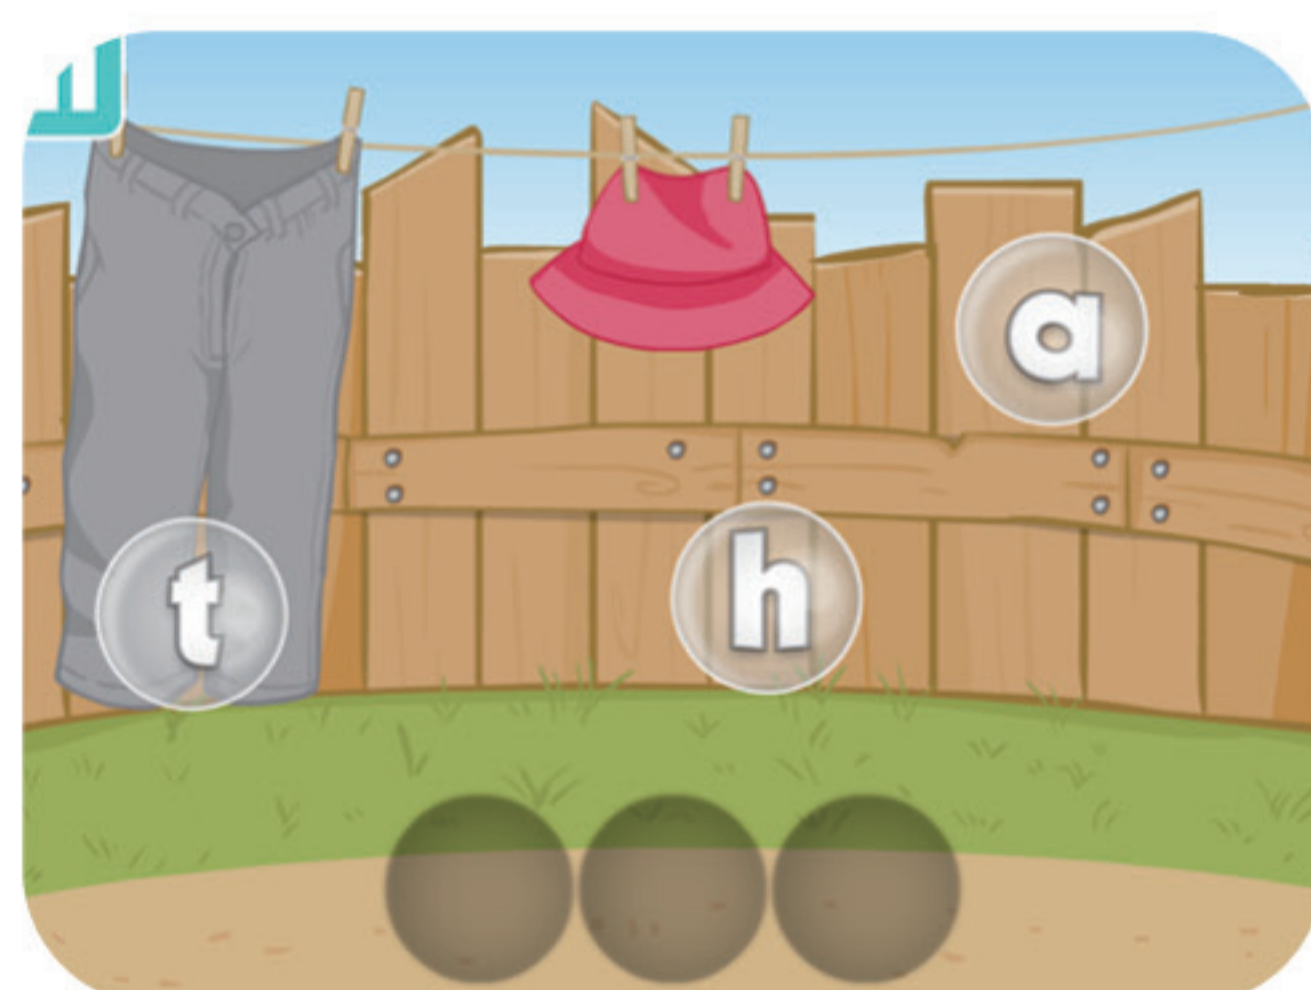

Studycat for Schools is built to engage children while seamlessly connecting schools, teachers, parents and students, even when schools are disrupted. Its flexibility allows it to be implemented in numerous different models to fit the specific needs of any school.

Developing essential skills

Studycat builds a love of learning and installs confidence in young learners.

While language acquisition is the main goal, children also develop other essential skills such as learner autonomy, critical thinking, communication, collaboration and creativity.

Critical Thinking
